Kenro announces the Nanlite Pavotube 6C II LED light

ABOVE PavoTube 15C two-unit Kit

The Pavotube 6C II LED is a portable LED light that can be used on its own or to supplement other units. It measures just 25cm long and is powered by a rechargeable Li-ion battery via USB-C, and gives a running time of around an hour at full power.

Its continuous output can be adjusted within a colour temperature

range of 2700 to 7500K, RGB mode allows the choice of 360 colours including full red, green and blue, and there are 15 special effects modes, including fireworks, storm and candlelight.

The 6C joins a family of Pavotube, and the more powerful, mains/battery-powered 15C and 30C units

are already available at £288 and £432 respectively. Both lights are also available in money-saving two-unit kits at £560 and £820 respectively.

There is an exclusive preview of the Pavotube 6C II in this month's First tests and it will be available this summer at £110.

Nikon School UK moves online

The range of Nikon School UK's courses, sessions and Q&As are being offered online for free or at discounted prices

In light of the current lockdown situation, Nikon is bringing its Nikon School UK courses to participants remotely. Online versions of the school's popular courses, which usually cost £120 to £150, and a range of Q&A sessions are being offered free of charge. One-to-one sessions are also being offered for the significantly reduced cost of £49, allowing participants to cover any topic of their choosing.

Courses and Q&As include offerings for beginners and enthusiast photographers alike, with subjects including getting the most from your Nikon cameras, lenses and speedlights, photo editing, macro and astrophotography, and even virtual landscape tours all planned for May. The online initiative may continue into June in line with government advice.

Details of online events can be viewed now.

Lexar readers

Lexar announces two new professional USB multi-card readers

Lexar's new USB Multi-card 2-in-1 reader supports SD and microSD UHS-II cards and can transfer from both slots simultaneously using USB 3.0 at up to 312MB/s.

The USB Multi-card 3-in-1 reader supports SD, micro SD UHS-II cards at speeds up to 312MB/s and CompactFlash up to 160MB/s. As with the 2-in-1 unit, simultaneous data transfer is possible.

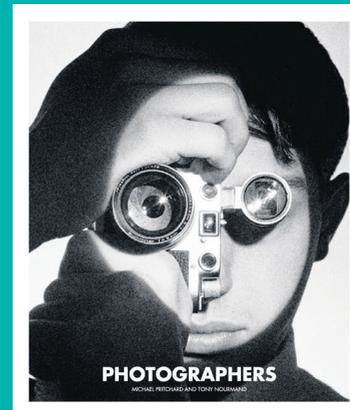

The 2-in-1 card reader costs £39.99 and the 3-in-1 reader is £49.99.

New books

If you want some photography books to get stuck into during lockdown, check out these new releases

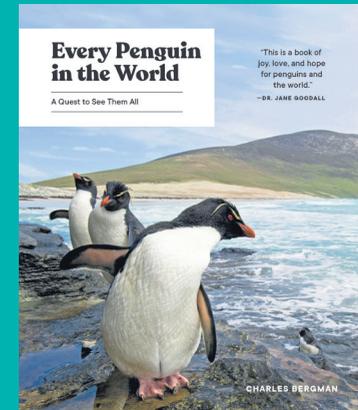

Photographers
Tony Nourmand and Michael Pritchard

This wonderful book features great images of photographers at work with their subjects and cameras. It features pictures – in association with Getty Images – of many of the 20th century's greatest photographers, including Henri Cartier-Bresson, David Bailey, Richard Avedon and Cecil Beaton. You will also see many classic cameras in action too, including Leicas, Nikons, Rolleiflexes and large format kit.

Photographers is available now in hardback at £29.95.

Every Penguin in the World: A Quest to See Them All
Charles Bergman

After a life-changing encounter with a king penguin on South Georgia island, author Bergman and his wife Susan committed themselves to seeing all 18 penguin species on the planet, and this book is about their travels. But it is much more than a travel book and it covers the behaviour of the different species, conservation and the current situation with penguins.

It's available this June in hardback for £19.99 and is published by Sasquatch.
